

Day 3 Panel Session: Future Directions

Mike Hayes

Panel Session – Future Directions

What are the emerging trends and technologies on our horizon and how do we maximise leverage?

To warm you up we have

- 1. An insight on how to progress TRL (Luca)*
- 2. An example of an emerging tech (Corrado)*
- 3. Insights on how to optimize components (Maeve)*

Consider

- 1. The material from EnerHarv*
- 2. Drive focus on energy aware systems*
- 3. Hearing about & ‘seeing’ real-life apps from ‘the other side’*
- 4. Other techs & gaps – Firmware, AI/ML, packaging, MEMS, nanotech, flex.....*
- 5. Other factors – business models, tools, databases/sets, guidelines, regulatory, socio-economic*

ANDIAMO!
